

DEVELOPMENT

Premises & Facilities

Crown Hills continues to be the subject of phased improvements which keep the teaching and learning environments well-equipped and maintained to a tasteful and pleasant standard. Our most recent addition is the state-of –the-art ICT City Learning Centre. October 2007 heralds the first stage of the government's Building Schools for the Future project (BSF) initiative, a £12 million programme of building and refurbishment.

Improvements

Work carried out recently include a new curriculum computer network, re-decoration and improved display facilities in several areas of the College, a completely new Music area, four new double mobiles, 2 Science labs, a new practice room and grounds conservation and maintenance projects.
