

LIAISON WITH PRIMARY SCHOOLS

Crown Hills takes students from many primary schools. It has a well developed link with about ten schools and is a very active partner in the Development Group of Evington schools, comprising Principals and Head Teachers from primary, secondary and special education and, as such, is very useful for understanding the needs within the whole age range. Whereas most contact between Crown Hills and the primary schools relates to transfer of pupils and special needs provision, there is also a growing amount of curriculum liaison and development. This covers sporting links, design & technology, music, literacy etc.
