

Design your own Pasta dish

Use the template below to finalise your pasta dish recipe.

You need to fill in all of the sections before the end of the lesson so that I can check it is suitable to make next double lesson. You will **not cook** if this is not complete.

I will be making a pasta dish which contains a sauce.

The name of the dish I will be creating is

The reason I have decided to make this is because:

Bright Spark

Why not try and create an industry process flow chart to show how to create your final pasta dish? Remember to use the correct shapes!

Think about the following questions:

- Could you change your design and make it better in some way?
- How are you going to present your dish?
- What could you do to make it healthier?
